

Course outline: equipment, floor and wall decontamination (see course outline)

1. Introduction

1. Chemicals
2. Chemistry provides solutions to the ecological transition
3. Risk exposure
4. Chemical storage
5. Chemical waste management
6. How to prevent risks?

2. Presentation of the range

1. POLYCAPTOR[®] presentation
 - How to absorb oil, paint, while leaving the floor dry?
 - How to absorb and clean flocculating polymers?
2. TRIVOREX[®] presentation (Acicaptal[®] & Basicaptal[®])
 - How can we protect ourselves in the management of spills?
 - How to neutralize the different types of chemical spills?
3. SAFUREX[®] presentation
 - Trivorex[®] and Safurex[®] (use and effectiveness)
4. The different online media
 - POLYCAPTOR[®]
 - TRIVOREX[®]
 - SAFUREX[®]
 - Online Diagnostics tool
